Graduate web software developer at Semantico

About Semantico

Semantico are a successful software development company **creating award-winning websites** and products for multi-national publishers. The company offices are located in the vibrant centre of Brighton.

As an expanding company, we are looking to recruit staff members for exciting roles including **graduate web software developers**. The role involves the full life-cycle of software development from new projects to maintenance and updates.

About you

This role is intended for those starting out in the industry. We welcome applications from final year students to start in summer 2008.

As the successful candidate, you will be a graduate in Computer Science, Software Engineering or an equivalent qualification covering software development skills. You will possess the following key attributes:

- **Java Software development skills** including design, programming, testing and maintenance
- **Good communication skills** in written and spoken English
- **Ability to work well in a team or alone**
- **Desire to learn new skills** and keep up with technologies

Any of the following skills and knowledge will also be beneficial:

- **Java technology knowledge** such as J2SE, J2EE programming, Servlets and JSP
- **Web development skills** such as HTML/CSS/JavaScript, AJAX, knowledge of the web architecture and technologies
- **XML knowledge** such as XSLT, XPath, XQuery, and XML databases
- **SQL Databases** such as PostgreSQL, MySQL, Oracle, SQL Server
- **Perl development skills**

About the opportunity

This is an exciting opportunity to join an expanding company based in the highly desirable city of Brighton. As well as a competitive salary (£18k to £20k), we offer:

- 23 days **annual leave** rising up to 28 days with service
- Central Brighton location
- **Sociable working hours** (09:30-17:30) in a friendly environment
- Opportunities for new **skills development and career progression**
- 3% of salary contributed by the company to your **pension** (set up after probationary period)

About the recruitment process

- To apply, please email a CV and covering letter to graduates@semantico.com
- Please include "Graduate developer" and your name in the Subject line of the email, e.g. "Subject: Jo Bloggs - Graduate developer".
- Keep up to date at <http://www.semantico.com/corporate/live/about/join-us.html>
- **Semantico has a Recruitment PSL in place and does not accept applications via agencies.**
